

GREEN TOURISM

...In tune with nature

In the heart of nature on the hill between Munster and Gunsbach, the village of Albert Schweitzer, "la Maison du Kleebach" is a dream halt for trekking in Alsace. It offers an outstanding view over the Munster valley. Here everything breathes and inspires communion with nature.

/ to discover / to regain composure / to breathe

For lovers of gentle tourism, passionate trekkers, riders or cyclists, "la Maison du Kleebach" is an ideal starting or stopover point in the heart of mountains full of possibilities: 350 km of way-marked footpaths, 250 km of cycle-paths, 2 paragliding sites, a climbing site, 11 ski resorts (3 within 15 km). The Alsace wine route is at your feet, Colmar and its historical centre is very near.

"La Maison du Kleebach" offers conviviality and outstanding accommodation for groups or families. The cuisine is prepared from natural products and adapted to the needs of each group. In harmony with its environment "la Maison" uses renewable energies: solar panels and a wood boiler.
